

MRACTGA Website Listing Form - instructions

The MRACTGA website (mtrogersfraserfir.org) offers informative articles about the MRACTGA, Christmas trees, Fraser Fir, our Seed Orchard, Local Attractions, Real Trees vs Fake Trees, etc. We also want visitors to be able to contact our members to support our tree sales and businesses. To this end we have a “Tree Finder” section, which offers a listing of various categories that represent most of the products and services we offer as Christmas tree farmers, each with links to each farm that offers that item.

We are aware that not every farm is ready to sell trees or products yet. We also respect that some members may not want their personal contact information displayed on the web. Participation in this listing is optional, and you can submit as much or as little information as you feel comfortable with. For instance, if you have a phone number or email you use mainly for business, and don't want to display your personal one, please just list the one you want “out there” for folks to see.

Please fill out the “MRACTGA Website Listing Form” as thoroughly as you can. Your farm name will be listed under each category that you choose, and your contact information will appear when the visitor clicks on your “link”. If you offer a product or service that is not listed, please add it under “Other”.

What your “LINK” will display: You choose how much or little you want the public to know about your business. It will include the contact info you specify, plus a list of the “categories” that you have selected. And if you already have a web page set up, please provide its URL (web-address). We can make the farm link go directly to your website.

There are two versions of this form: WORD doc file, and PDF file.

If you have MS WORD, you can open and edit the “doc” file, and then save it and email it back to Betty.

If you have Acrobat PDF, you can open the “pdf” file, and you may be able to edit it depending on your software version. If so, you can save it and email it back to Betty.

Please fill out this form and pop it in the mail, or email, ASAP!
